

CAREER OPPORTUNITY

POSITION TITLE Civil Engineering Technologist

STATUS Permanent, Full Time

LOCATION Penticton, BC

ABOUT MCELHANNEY

Based in Western Canada for over 100 years, McElhanney offers innovative and practical engineering, surveying, mapping, planning, landscape architecture, and environmental services. As a 100% employee owned and operated firm, with over 1,000 staff members, we are proud to offer qualified staff with shareholding options in our company.

At McElhanney, we work in teams to build strong connections with our staff, clients, and local communities. Our employees enjoy working here because of our varied projects, high levels of autonomy, opportunities for career development, excellent total compensation and benefits package, and team of great professionals.

ROLE OVERVIEW

McElhanney Consulting Services Ltd. has a new opportunity for a Civil Engineering Technologist to join our Penticton office. The successful candidate will have the opportunity to work on design and construction engineering for a wide variety of land development, municipal utilities, and roadwork projects.

This role is ideal for a new graduate or an individual that is early in their career, looking to grow a rewarding career with a well-established organization. Further, the successful candidate will receive mentoring and coaching support from senior civil staff members to help the individual excel within their role.

RESPONSIBILITIES

- Assist in the production of engineering designs/calculations, modeling, drawings, specifications, cost estimates, tender documents and contracts for land development projects including roadwork, storm and sanitary sewers, watermains, site grading, and stormwater management systems.
- Take projects from preliminary concepts and sketches into engineering designs, plans, and project documentation requirements, using primarily Civil 3D, as well as other technical software.
- Perform construction field reviews and prepare reports.
- Coordinate with other team members and clients to ensure schedules, budgets and quality control standards are achieved.

REQUIREMENTS

- Two-year technical diploma in Civil Engineering Technology; experience in the South Okanagan area market is considered an asset
- Registration as an A.Sc.T. or other technical accreditation is an asset
- Proficiency in Civil 3D Software is essential
- Proficient with Microsoft Office applications
- Natural communication and relationship-building skills
- Experience with administering construction contracts and construction inspections/supervision is an asset
- Ability to work without supervision as well as within a busy and close-knit team environment

BENEFITS OF WORKING FOR MCELHANNEY

- Locally based office with strong community ties and very positive working environment
- We are proud to be a company of technical professionals managed and owned by technical professionals
- Full benefits package, competitive salary, annual bonus eligibility and the potential to become an owner of the company
- An assortment of company-sponsored professional development activities.

If this is the opportunity for you, visit www.mcelhanney.com/careers to apply online.
We thank all applicants for their interest; however, only shortlisted candidates will be contacted.
McElhanney is proud to be an Employment Equity employer.

Located in the sunny Okanagan region of British Columbia, Penticton has the best climate in Canada as ranked by Environment Canada. The semi-arid desert climate provides over 2000 hours of bright sunshine and only 23 cm of rain per year.

Our local team specializes in Land Survey, Planning and Engineering related to residential and agricultural land development, road and municipal infrastructure, and utility design and construction. If you've driven down Highway 97, cycled the Kettle Valley Rail Trail, or toured the South Okanagan's Wine Country, you've seen our handiwork.
