

D.E. Pilling & Associates Ltd. seeks an Intermediate Design Technologist to join our design team in our busy office in Kelowna, BC. The successful candidate will be competent with Civil 3D & AutoCAD and have advanced experience with the design of site grading, roads, water, sewer, and drainage works. Our projects are primarily in the Okanagan Valley from Osoyoos to Vernon. Projects are primarily residential land development and commercial developments.

Qualifications and Experience:

- Technology Diploma in Civil Engineering from an accredited institution.
- **3-5 years plus** experience in the design of municipal public and private sector projects including sewer, water, road construction, and rehabilitation
- Advanced proficiency using Civil 3D and AutoCAD
- Experience in a fast-paced environment
- Understanding and familiarity of Subdivision, Servicing and Development Bylaws

Duties:

- Proficient use of Civil 3D, AutoCAD, Excel & Word
- Use Civil 3D to create 3D surfaces, alignments & profiles, corridors, sections, pipe design & details, survey layout and drawing production
- Work with clear understanding of Municipal Bylaws, MMCD Standards and the development process
- Prepare cost estimates and quantity sheets
- Manage multiple assignments and tasks within the project time frame
- Prioritize duties to meet strict deadlines
- Strong verbal and written communication skills and attention to detail
- Work as part of a team as well as independently

D.E. Pilling is a Kelowna based firm that has been providing engineering services and project management in the Okanagan Valley area for over 30 years. We offer competitive compensation, benefits, and challenging projects that will allow you to further your career development and diversify your skills.

If you possess the required qualifications and feel this is the opportunity for you, please forward your resume including a cover letter with wage expectations to [reception@pilling.ca](mailto:reception@pilling.ca).

We thank all applicants for their interest; however, only shortlisted candidates will be contacted.
