

Career Opportunity

Position Title	Structural/ Mechanical Design Technologist
Status	Full-time, Permanent
Location	Canmore, AB

About McElhanney

Based in Western Canada for over 100 years, McElhanney offers innovative and practical engineering, surveying, mapping, planning, landscape architecture, and environmental services. As a 100% employee owned and operated firm, with over 1,000 staff members, we are proud to offer qualified staff with shareholding options in our company.

At McElhanney, we work in teams to build strong connections with our staff, clients, and local communities. With major clients across three market sectors: Cities and Communities, Transportation & Transit, and Energy and Resources, we work on numerous high-profile projects and have an impressive list of awards and recognition within the industry. Our employees enjoy working here because of our varied projects, high levels of autonomy, opportunities for career development, excellent total compensation and benefits package, and team of great professionals.

About Canmore

Our Canmore office is situated next to Banff National Park in the Rocky Mountains of Alberta. Canmore offers world class outdoor adventure opportunities, including mountain biking, rock climbing, white-water kayaking, downhill and nordic skiing, as well as more leisurely pursuits such as fishing, golfing, and camping.

Our local team is a diverse group of engineers, surveyors, and urban planners. While a large part of our services relates to land development and municipal engineering, we also provide unique services relevant to the mountainous region we live in. These include mechanical and structural engineering for the ski industry and trail design services. Have you taken your mountain bike on the High Rockies Trail? Ridden one of the many lifts at Lake Louise? Or navigated the roads in Spring Creek Mountain Village? If so you've experienced our handiwork.

Role Overview

McElhanney Consulting Services Ltd. has a rewarding opportunity for an individual to join our team as a *Structural/ Mechanical Design Technologist* in Canmore, A.B. The successful candidate will be involved with the entire structural/mechanical team at McElhanney, while being a key member of our structural design team in Cranbrook, B.C.

Responsibilities

- Providing design support for structural engineering projects, including ski lifts, amusement rides, foundations, retaining walls, and other related structures;
- Preparation of documents required for approvals, development and construction cost estimates, and tender documents and contracts;
- Working with other team members to ensure schedules, budgets, and quality control standards are achieved and maintained.

Requirements

- Diploma from an accredited technical school, or college;
- Engineering Technologist with 5 years' experience in structural and/or mechanical design
- Proficiency in AutoCAD, Inventor, and/or Revit;
- Registration as a CET or RET in Alberta, or eligibility to be registered, is required;
- High productivity and attention to detail;
- Ability to work independently with minimal supervision
- Effective verbal and written communication skills as well as strong teamwork abilities;
- Ability and desire to work in unusual outdoor environments – ski slopes, mountain resorts and parks.

If this is the opportunity for you, visit www.mcelhanney.com/careers to apply online. We thank all applicants for their interest; however, only shortlisted candidates will be contacted.

McElhanney is committed to the principles of equity in employment.
