

SURVEY TECHNICIAN

You love math, logic, order, and seeing a project take shape in a base plan. You work with survey equipment, but it is the vectors and attributes that really draw you in. You provide the data, the essential starting point for Binnie's engineering designs.

Binnie is looking for a Survey Technician based in our Burnaby office, near scenic Deer Lake.

You will be part of our Geomatics Group, helping to process survey data for a wide range of survey services—including topographic, legal, as well as construction surveys. You will gain valuable work experience and knowledge within a supportive group of staff.

This is a full-time, permanent position. You will be working on projects around the Lower Mainland and other areas of British Columbia. You will work primarily in the office with the potential for field exposure, when required. This is a dynamic role with opportunities for career advancement.

YOUR ROLE:

- Managing and processing of survey data (Lidar, Scanning, Photogrammetry)
- Performing adjustments and grid/ground scaling of survey data
- Compiling mapping from different sources and determining usefulness of information for project
- Compiling/calculating cadastral mapping base from legal plans
- Identifying and recommending solutions to problems in cadastral mapping base
- Processing Static GPS control networks using Trimble Business Centre
- Creating 3D surfaces and producing cross sections/volumetrics
- Obtaining utilities information from BC One Call and other Stakeholders
- Interpreting/transferring utilities information on mapping base and resolving conflicts with provided information
- Interpreting construction drawings and providing layout points
- Working closely with Project Managers to deliver the project on schedule
- Performing QC on survey data/final base mapping and report delivery

WHAT YOU BRING:

- 2-5 years of related experience as a Survey Technician working with Autodesk Civil 3D preferred
- Completed Diploma or Degree in Geomatics, or an equivalent combination of education and experience
- Excellent knowledge of current survey methodology
- Registration as an ASCT or CTech with ASTTBC preferred
- Valid BC Driver's License for site visits
- Strong time management skills
- Excellent interpersonal skills
- Ability to work cooperatively in a team environment

ABOUT BINNIE:

We are the people behind the infrastructure you use every day. We're small enough to know each other's names, and big enough to be where we're needed. As an employee-owned firm and one of Canada's Top 100 Employers, we take pride in our work and are respected as one of the top engineering firms in British Columbia. We support some of the most important infrastructure in the province and beyond.

We're looking for professionals who want to build careers and communities that last. We can't do it without you.

THE PERKS:

People come first. We support you with the education, mentoring, and growth opportunities you need to build an interesting career. As an employee-owned firm, we create a clear internal growth path that can keep up with even the most ambitious professionals. Whether it's soccer or coffee clubs, hockey pool, lunchtime yoga, Movember or Bowling for Big Brothers, everyone can get involved in their own way.
