

BUILD YOUR CAREER

WITH THE CITY OF PRINCE GEORGE

ENGINEERING ASSISTANT REGULAR FULL-TIME Transportation / Engineering & Public Works Department

Are you a highly motivated professional with experience in transportation infrastructure design?

As an experienced Technologist, you will be responsible for delivering all aspects of transportation infrastructure design to a “construction-ready” level, including road structure, curb/gutter, traffic control devices, sidewalks, walkways, stairwells, retaining walls, storm drainage facilities, ditching, etc. You will be involved in all design activities, preparing and reviewing budgets, processing and approving various permits, performing inspections, writing reports and correspondence. This position generally works with a high degree of self-direction while coordinating activities with other technical staff, construction workers, contractors and other agencies.

The ideal candidate will possess a minimum of five years’ work experience with survey, design and management of road construction projects. You are registered as an Applied Science Technologist (AScT) within the Province of British Columbia, enjoy a fast-paced workplace and thrive while working as part of an inter-disciplinary team. A skillful communicator, you are able to deal tactfully with a broad range of clients and pride yourself in providing customer service excellence.

This regular, full-time position offers a starting wage of **\$38.20** per hour as well as a comprehensive benefits package.

As a condition of employment, a valid full privilege class 5 BC driver’s license is required (or out of province equivalent).

Please apply **attaching a current driver’s abstract by October 26, 2018** to:
