

Engineering Technologist – Projects

Job Id: 18-120
Department: Engineering
Salary: \$38.62 - \$45.63 per hour
Closing: November 25, 2018

Come grow with us! Maple Ridge located in Metro Vancouver is a vibrant and rapidly growing City with outstanding recreation, arts and cultural amenities and some of the most affordable housing in the region. This combined with a dynamic community makes Maple Ridge a great place to work, play and live. Come join us and be part of the change.

Are you a team player with a “can do attitude”, excellent communication, interpersonal skills and exceptional customer service skills? We have the perfect opportunity for you.

We have a full time opportunity for an Engineering Technologist in our Engineering Department working in the Design and Construction Section

A little bit about you:

Knowledge of:

- Municipal engineering design principles including the preparation of engineering plans, specifications, contract documents and related materials;
- the methods, materials and equipment used in the construction of municipal utilities and survey methods and functions;
- the functions and responsibilities of various internal departments and external agencies as related to the work performed.
-

Ability to:

- Establish and maintain effective working relationships with people at all levels, both inside and outside the City;
- coordinate studies and capital projects including consultation liaison, technical reviews, report writing and budget management;
- prepare read and interpret plans, specifications, technical reports, contract documents and related materials;
- prepare and maintain records, reports, correspondence, servicing agreements and various other work-related materials;
- Graduation from a diploma program from an Institute of Technology in an appropriate discipline plus sound related Municipal engineering experience.

- Certification or eligibility for certification as an Applied Science Technologist within the province of British Columbia.
- Driver's License valid in the Province of British Columbia.

Your key responsibilities are:

This is technical and administrative engineering work at the sub professional level performed in the Engineering Department. The work involves administering assigned projects relating to the construction and installation of municipal utilities, reviewing designs and plans for municipal services, performing site inspections, maintaining liaison with and providing direction to a wide variety of internal and external contacts, and preparing and maintaining a variety of records, reports, correspondence, contracts and documents related to the work.

The successful candidate will be required to complete a Police Information Check as a condition of employment. (Note – not required a part of the application process; however, will be required upon consideration for employment)

All required licenses, certificates and registrations associated with this competition must also be valid and current at the time the postings close and must be attached with your application. Please have these documents ready to upload when you apply.

What we offer you:

The City offers a competitive compensation package that includes a strong wellness program and the opportunity for career and professional development.

If you want to help shape a growing community in a municipality that strives for service excellence, then this is the position for you.

To apply for this position please submit an online application on our website:
