Your New Opportunity

ROV Consulting Inc. has an immediate exciting opportunity for a **Senior Structural Technologist/Drafter** to join our young, vibrant, service focused team in either Kelowna or Vancouver. In this role you will be responsible for the drafting of multifamily, commercial and high-rise projects in Concrete, Steel, Wood and Masonry. You will be working closely with clients and professionals alike and provide clear communications both verbally and through drawings and details.

Responsibilities

- Working as a team with one or more project engineers, drafters and conducting field reviews.
- Working toward project schedules and great client relationships.
- Adhere to our Organizational Quality Management system.
- Preparing Structural Engineering drawings.
- Discussing projects and details both with clients and the project team.
- Communicating with Clients, Architects, developers and Contractors.

Requirements

The successful candidate must have:

- A minimum 10 years' experience as a Structural Drafter in Steel, Concrete, Wood and Masonry.
- A good working knowledge of AutoCAD.
- Experience with REVIT is an asset.
- Some on-site construction experiences.
- Knowledge of the applicable material design standards and BC Building Codes.
- A valid driver's license.
- An outgoing personality.
- A team player attitude.

Company Overview

ROV Consulting Inc. is an OQM-certified Structural and Building Energy Engineering firm based in Kelowna, BC. We've been serving the Interior of BC since 1997, and are licensed to practice in BC, Yukon, Alberta, Saskatchewan and Arizona.

Our projects range from small residential additions and renovations to large commercial projects and high-rise structures.

Our office is very busy with many different types of interesting projects and the atmosphere and environment is considered by most to be the best engineering office in BC.

Rewards

We offer our employees a competitive hourly wage plus overtime, an excellent benefits package and a great place to work with a young team of like-minded professionals. ROV has a great history of training up engineers and drafters into successful professionals.

- Extended medical and dental benefits.
- STD & LTD insurance
- Critical Illness Insurance
- Life Insurance & AD&D
- 2 weeks' vacation to start
- Mileage allowance
- Opportunities for growth
- Allowance for paid training
- Seasonal family parties including Christmas Party and Summer BBQ's

Our office is a tight, close knit family that you will be welcomed into. We have a range of social events throughout the year.
