

CAREER OPPORTUNITY

POSITION TITLE Civil Engineering Technologist

STATUS Full time, permanent

LOCATION Nanaimo, BC

About McElhanney

Based in Western Canada for over 100 years, McElhanney offers innovative and practical engineering, surveying, mapping, planning, landscape architecture, and environmental services. As a 100% employee owned and operated firm, with over 1,000 staff members, we are proud to offer qualified staff with shareholding options in our company. Our teams work hard to build strong connections with our staff, clients, and local communities.

Our award-winning engineers and technologists embrace a trailblazing spirit by challenging conventional thinking, questioning the status-quo and expressing our passion to use engineering to make the world a better place. We recognize that our projects must serve the interests of our communities for the long term. Therefore, our teams specialize in municipal infrastructure & roadways, water resources, transportation, land development, structural, geotechnical, construction and electrical engineering services. From senior management to our most junior recruits, we are partners in solving our clients' challenges.

Role Overview

McElhanney Consulting Services Ltd. is currently seeking an experienced and motivated individual to join our team as a Civil Engineering Technologist in Nanaimo, BC. This role is ideal for someone looking to grow his or her design/construction engineering experience by working on a wide variety of land development, municipal, and construction projects. The successful candidate will be an expert with Civil 3D, AutoCAD, and other technical software.

Responsibilities

- Assist in the production of engineering designs, drawings, specifications, cost estimates and tender documents for projects such as potable water, sanitation, stormwater management plans, roadway design, site grading and drainage systems
- Take projects from preliminary concepts and sketches into engineering designs, plans, and project documentation requirements, using primarily Civil 3D, as well as other technical software as needed
- Coordinate the preparation of documents required for regulatory approvals, prepare construction cost estimates and tender documents/contracts
- Coordinate with other team members to ensure schedules, budgets and quality control standards are achieved
- Identify issues and facilitate corrective measures, think independently
- Liaise with contractor, clients/owners and affected stakeholders

Requirements

- Diploma in Civil Engineering Technology plus 2-5 years' experience in municipal design and construction
- Registration as an A.Sc.T. or other technical accreditation is an asset
- Candidates will have, or will immediately obtain and maintain, membership with the regulatory association in the province in which the work is being done).
- Advanced proficiency in Civil 3D Software is essential
- Excellent communication, client management, and relationship-building skills
- Experience with administering construction contracts
- Ability to work without supervision as well as within a busy and close-knit team environment
- Experience in the training/supervising of junior technical staff would be an asset

If this is the opportunity for you, apply now or visit www.mcelhanney.com/careers to apply online. We thank all applicants for their interest; however, only shortlisted candidates will be contacted.

As the second largest city on Vancouver Island which has earned the title “Canada’s Sunporch,” Nanaimo is a thriving mix of restaurants, music venues, shops, galleries, and unique cultural elements—such as the world-famous Bathtub Races! Nanaimo is host to a multitude of retail opportunities including the largest mall on Vancouver Island - Woodgrove Centre. Nanaimo also offers natural beauty at every turn, from mountain wilderness to spectacular beaches, with vast recreational opportunities for everyone.
