

MY WORK CITY

Design Technician Infrastructure Delivery

Build the Best!

The City of Kelowna is seeking an experienced Civil Engineering professional to join our Infrastructure Delivery Department, supporting our construction branch in the delivery of a safe, vibrant, and sustainable city.

With a Civil Engineering Technology Diploma and a minimum of five years demonstrated civil construction and project management experience, you will be responsible for construction project management support for the city construction crew to complete a wide variety of the city's capital projects. Typical projects include road improvements, sidewalks, bike paths and utility upgrading for water, drainage and sewer systems. The successful incumbent will be responsible for liaising with Infrastructure Delivery staff, consultants, sub-contractors, suppliers, external stakeholders and various city departments on all aspects of projects and resource scheduling.

Help Kelowna to become the best mid-sized city in North America! We offer career/professional development, progressive employment practices, and a great work environment. This is a CUPE bargaining unit position and offers a salary range starting at \$36.02 per hour with a 5-step progression to \$41.46 per hour (based on a 40-hour work week) and includes a competitive benefits and pension package. Come work, play and live in Kelowna and enjoy mild weather, stunning vistas, boating, skiing, boarding, hiking and much more.

Apply online at kelowna.ca/careers by January 7, 2019.

Applicants not contacted within three weeks of the competition closing date are thanked for their interest.
