**What we are looking for:**

Consulting on industrial and commercial projects, you will be responsible for completing site assessments, preparing technical reports and educating Pinchin's clients of any hazardous materials that may exist in their buildings. This position will require regular travel for site visits.

**What you bring:**

- Bachelor's degree, diploma or certificate in a related industry
- Some experience collecting samples for routine analysis, interpreting test results and report writing
- Demonstrated ability to exercise good judgement
- Work well with minimal direction/ supervision
- A reliable vehicle and a current and valid driver's license
- Ability to work overtime on evenings and weekends

**What success looks like:**

- You take on new work and tough challenges with a sense of urgency and enthusiasm
- You hold yourself accountable to meeting commitments
- You're flexible and adapt your schedule to the client's changing needs
- You are able to work through the details of a problem to reach a solution
- You communicate clearly and effectively in written format

**Bonus skills and experience:**

- Familiarity with construction processes

**Why join the team:**

- Competitive compensation, excellent benefits and perks. To see them all click [here](#)
- The Pinchin commitment to each other's professional and personal growth
- Paid travel to unique areas of B.C., and the Yukon

We offer a competitive salary and benefits package and a fun, relaxed company culture. We also offer annual profit sharing, RRSP matching, and a fitness reimbursement program.
