3. **ACTION AGENDA**

**GOAL #1 – PROFESSIONAL LEGISLATION & REGULATION**

3.1.1  **PTech Implementation – CEO Authorized to Proceed**
Council received for information a Report on PTech Implementation – CEO Authorized to Proceed. President Trulson reported that Council discussed the PTech implementation at the Council Workshop held earlier in the day and a revised Resolution was put forward.

17-25:  *That the following model be approved for implementation by the CEO.*

ASTTBC supports a legislative model similar to that in Alberta. ASTTBC proposes a change to the BC Engineers and Geoscientists Act to include PTech as a professional permitted to practice independently and where 50:50 (PTech and P.Eng) Boards review and approve applications. The PTech would be granted independent rights to practice within the scope definition as per section 4.1 of the ASTT Regulations and consistent with Practice Guides as approved by Council as noted in section 4.3 of the ASTT Regulations. The PTech would be fully regulated by, and be members of, ASTTBC. The ASTT Act would be amended to include PTech as a ‘member’ of ASTTBC.

M/S/C

17-26:  *That the CEO be authorized to proceed with full implementation of PTech based on a broad strategy framed by Council. The CEO will report to Council at appropriate intervals and at least twice a year.*

17-27:  *That the Professional Practice Guidelines – Legislated Riparian Area Assessments in British Columbia be approved as a guide for ASTTBC Members with the understanding that the document appropriately reflect ASTTBC before it is published by ASTTBC and that ASTTBC seek agreement with the other professional associations on the naming of the document.*

President Trulson reported that this item was discussed during the Council Workshop held earlier in the day. Council was somewhat disappointed with the APEGBC strategy document as during the ASTTBC – APEGBC Joint Board meetings the initiative was presented as a ‘fast track’ for ASTTBC-registered PTechs and the proposal as outlined provides little or no consideration of PTech credentials and professional certification by ASTTBC.
