POSITION: CIVIL ENGINEERING TECHNOLOGIST

Webster Engineering Ltd. is a small and successful civil engineering and land development consulting firm which specializes in steep, rocky terrain, and is located in North Vancouver. Our work includes projects focused on the North Shore, Sea to Sky Corridor, Whistler, Pemberton, Bowen Island and the Lower Mainland. Webster Engineering is seeking a talented civil engineering technologist with AutoCAD drafting skills who will provide a compliment to our recognized area of excellence in land development.

Essential duties and responsibilities of the successful applicant:

Civil engineering design and drafting, with direct supervision from engineer, including the following:

- Preparation of storm, sanitary and watermain drawings including key plans, profiles, and details.
- Preparation of roadworks drawings including plan, profiles, typical sections, cross-sections.
- Preparation of preliminary servicing concept and rezoning plans.
- Preparation of Detailed design drawings to support Subdivision, and Building Permit Applications.
- Communication with clients, contractors, and regulatory agencies, via phone and e-mail.
- Coordination with Subconsultants.
- Coordination of shallow utilities such as BC Hydro, Telus, Shaw and Fortis.

The successful applicant will possess the following experience and qualifications:

- Minimum 2 years of (full time) experience in civil engineering design and drafting
- Complete proficiency with Civil 3D software
- The ability to contribute in a team environment
- Strong communication skills (verbal and written)
- Strong organizational skills
- The ability to effectively prioritize and manage multiple projects
- High degree of integrity and honesty
- Works with enthusiasm and dedication
Compensation Plan:

- Salary range is negotiable and will commensurate with experience
- In addition to BC Medical, an extended medical plan is provided, with amount based on salary, to be used as needed for medical care, glasses, prescriptions or other medical expenses; and
- Performance bonus commensurate with productivity and profitability on an annual percentage basis.

The work environment at Webster Engineering is dynamic and stimulating. We encourage staff to reach their full potential aided by mentoring, training and professional development.

To Apply:
