

CIVIL TECHNOLOGIST (PORTS & INDUSTRIAL)

You are a civil technologist who is ready to roll up your sleeves and get your hands-on projects. You perform best in groups where you know what is expected of you. You are not afraid to ask questions. You have a solid working knowledge with AutoCAD and Civil3D and have demonstrated experience in mechanical and/or piping design and drafting. You are eager to join a team that you can contribute to – and provide mentorship and training to your team. You are skilled and knowledgeable with CAD production, effective drawing file management, the broader design process, and how a team works together to get projects done.

Binnie has an exciting new opportunity for a Civil Technologist to join Ports & Industrial Division which provides design and project management services specializing in storm drainage collection and distribution systems, pump stations, valve chambers, and general port projects including pavement, rail, and utility designs.

This is a full-time position in our Burnaby head office, located near scenic Deer Lake.

You will work with our friendly and supportive team of experienced Project Managers, Designers, and Engineers on a wide range of projects. You will carry out design work, CAD assignments, site visits, and quality management according to Binnie's Organizational Quality Management Policy (OQM). This role offers great mentorship opportunities.

YOUR ROLE:

- Preparing AutoCAD and Civil3D designs and drawings and completing design calculations
- Performing and documenting quality control checks on CAD drafting and Civil 3D work in accordance with Binnie's Quality Management Program
- Preparing documentation for design folders and reports
- Calculating design quantities for materials and preparation of cost estimates
- Assisting in the preparation of project specifications and contract documents
- Performing on-site inspection duties

WHAT YOU BRING:

- Minimum of 1-2 years of experience on projects in a civil consulting engineering environment
- Experience working with Civil 3D and AutoCAD an asset
- Completed Diploma in Civil Engineering Technology or a related field
- Registration with ASTTBC (registration as an ASCT an asset)
- Valid Driver's License and own vehicle for site visits
- Excellent organization and time management skills
- Ability to communicate effectively with colleagues, contractors, and clients

ABOUT BINNIE:

We are the people behind the infrastructure you use every day. We are small enough to know each other's names, and big enough to be where we're needed. As an employee-owned firm and one of Canada's Top 100 Employers, we take pride in our work and are respected as one of the top engineering firms in British Columbia. We support some of the most important infrastructure in the province and beyond.

We are looking for professionals who want to build careers and communities that last. We can't do it without you.
