

## Junior Civil Design Technologist

### Victoria, BC

#### About the Opportunity

We are looking for a highly capable Junior Civil Design Technologist to join our Victoria team. This is an opportunity to join our existing civil engineering team providing quality services to our clients on Vancouver Island and the surrounding areas. In this role, you will benefit from the support of industry professionals while working on exciting and rewarding projects that make a visible difference in many communities.

As a Civil Design Technologist, you will be responsible for assisting the team in translating high level conceptual designs from preliminary, through to detailed design. The entire spectrum of work is something that our team members navigate and explore every day. Specifically, you can expect to be involved in:

- Carrying out design tasks and/or AutoCAD assignments.
- Supporting project teams with civil drawings, quantity calculations, project coordination, and assisting with design changes during construction.
- Ensuring quality control and verifying accuracy of design.
- Communicating with project leaders.
- Complete project documentation and file information.
- Advising team on technical challenges and troubleshooting.
- Performing a variety of defined assignments with independent judgment.
- Construction inspection and other field services for various civil engineering projects working alongside our design and construction team.
- Construction management and coordination with project teams to ensure budget, and timelines parameters.
- Carrying out construction inspections, survey, and field services.
- Communicating with clients, contractors, and consultants.
- 

Due to COVID-19, the opportunity to work remotely and from home does exist. However, this role is related to on-site construction inspections for municipal and Indigenous clients and therefore, the individual would need to reside in the Victoria or Vancouver Island region.

#### About You

Our ideal candidate will be a recent graduate of an accredited Civil Engineering Technology or CADD Technician program with up to 2 years of relevant experience. Given the variety of project needs and a desire to find the right person to fit within our team, we will consider candidates with a range of experience, education, and background in land development,

transportation, and/or municipal infrastructure. In particular, we are looking for the following skills, strengths and interests:

- Proficiency with AutoCAD.
- Proficiency with Microsoft Excel and other MS Office software.
- Experience with Civil 3D, GIS, and Infracore an asset.
- Understanding of drawings and drawing review.
- Attention to detail in design.
- Ability to understand specifications and contract documents.
- Effective communication and writing abilities.
- Committed to ongoing personal and professional development.

## **About Us**

Recognized as one of Canada's top employers, Urban Systems is an employee-owned interdisciplinary consulting firm based in Western Canada. In business since 1975, we have over four decades of experience working with a variety of clients including all levels of government, Indigenous communities, commercial and residential land developers, and the natural resource sector.
