

# BUILD YOUR CAREER

WITH THE CITY OF PRINCE GEORGE

## ENGINEERING TECHNOLOGIST REGULAR FULL-TIME ROADS & FLEET / CIVIC OPERATIONS

*A Rewarding Project Management Role with Room for Advancement!*

### ***About Our Community:***

Boasting a high quality of life and standard of living, Prince George has all of the amenities of a large city mixed with the friendliness and appeal of a smaller community. Prince George's central location in the province offers work/life balance with unparalleled access to four-season outdoor recreation activities that are complemented by a full range of urban amenities and a comprehensive transportation infrastructure that connects local residents, businesses, resources and agricultural products to markets around the world. And it is only a short drive to almost anywhere in Prince George – spend less time commuting and more time doing what matters most to you! Discover all of these opportunities and more!

### ***About Our Organization:***

The City of Prince George is committed to ensuring a positive, well-balanced work environment for its employees. With opportunities for employee training, wellness programs and professional development, the City of Prince George offers a safe and supportive workplace in which to serve our community.

### ***About The Opportunity:***

In this role, you will be responsible for administering the delivery of projects including initiation, detailed design, construction administration, inspection, project management and close out. In this portfolio, you will be responsible for transportation project designs, developing and coordinating projects and budgets, administering programs, liaising with construction crews, processing/approving and inspection of various permits, and writing reports/correspondence. You will work with a high level of self-direction while leading a project team comprised of internal staff/stakeholders, technical consultants, contractors, construction workers and other agencies. Careful analysis, timely communication and detailed planning skills are essential for your success in this role.

### ***About Your Background:***

We are seeking highly motivated professional with a two year post-secondary Diploma in Civil Engineering Technology. Ideally, you hold a designation as an Applied Science Technologist (AScT) (or out of province equivalent) and have completed project management courses or have obtained the Project Management Institute (PMI) Certification. You have a minimum of five years of progressive experience with survey, design and management of road construction projects. A full privilege Class 5 BC driver's license (or out of province equivalent) is required.

### ***Why You Will Love Working for our Utilities team at the City of Prince George:***

- Play a key role in developing and managing projects and budgets.
- Work with a broad range of clients to provide customer service excellence.
- Enjoy a competitive wage range of \$41.04 - \$46.93 (wage under review) per hour plus a comprehensive benefits and pension package.
