REASON FOR POLICY

Effective communication is essential for the provision of competent, safe, and quality applied science and engineering technical services. Language efficiency enhances public protection by ensuring that registrants can communicate effectively with employers/employees, colleagues, clients, and other members of the public. For these reasons, the Credentials Committee believes that applicants must provide evidence of language proficiency in English.

APPLICABILITY

This policy applies to all applicants for registration in their respective category, class, sub-class, discipline, or endorsement. All applicants are required to provide evidence that demonstrates their proficiency in English.
