

Are you looking to join a team that is Genuine, Honest, Supportive, Fun Loving and Tenacious?

Integrated Fire Protection was founded in 1990 and has distinguished itself within the Okanagan Valley through our devotion to quality and providing top-tier service to each and everyone of our clients. What is top-tier service you ask? We believe in sharing knowledge, hard work, attention detail, consistency and simply, caring about our clients and the public. This year marks our 33rd year in operation, led by a team with a combined 170 years of experience within the Life Safety industry. We, at IFP, are uncompromising in our goal of secure and structured growth, while encouraging a healthy lifestyle for our team. It is our belief that this approach fosters long term sustainable employment for all. We know that nothing great can ever be accomplished alone and that the voices within our team matter. With that in mind, we use a 'Round Table' style approach to all conversations where everyone's feedback, knowledge and experience are taken seriously. We are building the company of the future, we are excited and honoured to have the ability to continue building our team.

Brand Promise: Life Safety Simplified

Core Values: Respect | Resolute | Leadership

Who we want?

We are looking for a **Registered Fire Protection Technician** (AL, EM, EX) or **CFAA Certified Technician** to join our dynamic team. You will be tasked with providing top tier service during the inspection, testing and maintenance of all life safety systems including Fire Extinguishers, Sprinkler Systems, Emergency Lights and Fire Alarm systems that our clients have come to expect from IFP. You will have the support of a tight knit and experienced team dedicated to providing opportunities for growth. We are looking for like-minded individuals with a thirst for knowledge.

Job Description

- Acting as an ambassador of the IFP brand in all interactions with IFP employees, customers, and business partners.
- Perform inspections, testing and ongoing maintenance for Sprinkler systems, Fire Alarm systems, Fire Extinguishers and Emergency Lights on a monthly, quarterly, semi-annual, annual, and multi-year basis to all applicable codes and standards.
- Timely and professional completion of inspection reports and identification of deficiencies prior to leaving job site.
- Timely and professional completion of Time and Material documentation prior to leaving job site.
- Timely and professional completion of safety documentation prior to leaving job site.
- Communicate with clients and IFP staff regarding project status, system status and timely identification of any relevant information.
- Ability to work in a team environment to complete inspections in a timely manner while ensuring code compliance.
- Able to perform upgrades, repairs, additions, or improvements to systems following inspection as required.
- Be responsible for responding to service calls during evenings and weekends, on a rotational basis.
- Maintain safe working environment and adhere to company safety policy as directed.
- Mentorship and Training of Junior RFPTs

- Be willing to continue your development personally, professional, and technically.
- Work 8 hours per day (40 hours per week/Paid hourly). Overtime may be required.
