

We live and play where we work.

## Environmental Technician or Technologist

Cascade Environmental Resource Group Ltd. offers a wide range of environmental consulting and land use planning services to meet the needs of governments, agencies, recreation and resort operators, natural resource companies, land developers, stakeholder groups, and private citizens throughout British Columbia, Alberta, and the Yukon. Our work is highly diverse, with offices in our hometowns of Squamish and Whistler, we live and play where we work.

Cascade is seeking a qualified **Environmental Technician or Technologist** for immediate start, eager to take the next steps in their career development by joining our supportive team of local experts based in Squamish. Conducting and/or lead monitoring projects for construction and development, aquatic and terrestrial habitat assessments, ensuring applicable permits and approvals are in place.

This career opportunity offers a mix of office and field work where no week is the same.

### Role to co-ordinate and conduct, contribute to:

- Proposal Writing
- Monitoring (e.g., construction and development projects)
- Permit, license, authorization, and approval applications
- Desktop & field assessments for aquatic and terrestrial habitats
- Field Surveys (e.g., bird, invasive species, site bioinventory)
- Data compilation, analysis, and reporting
- Client meetings & stakeholder engagement
- Technical Report Writing
- Habitat Restoration

### *In support of*

- Construction and development project
- Resource and land use assessments
- Environmental impact assessments
- Wildlife and habitat assessments
- Instream Work
- Phase 1 PSI
- RFPs
- Invasive Species assessments
- Riparian Areas Protection Regulation (RAPR) assessment
