

DISTRICT OF SAANICH  
ENGINEERING  
TRANSPORTATION AND DEVELOPMENT SERVICES

## **ENGINEERING TECHNICIAN IV – TRANSPORTATION AND DEVELOPMENT SERVICES**

### **Permanent Full Time Position**

The District of Saanich is the largest municipality in beautiful Greater Victoria, blending both the urban and rural environment and home to approximately 124,000 citizens. Employing more than 1,500 staff, our greatest asset is a high performing workforce. Recently named one of BC's Top Employers for 2023, we provide a collaborative, exciting and progressive work environment that consistently attracts top-quality people, enables them to perform at their best and grow their skills. Our competitive wages, excellent benefits package, generous pension plan, flexible work program supporting an inclusive work environment and progressive initiatives make the District of Saanich a highly desirable place to invest your talent.

The Engineering Department is seeking an experienced engineering technologist to join our Transportation and Development Services Division. The Engineering Technician IV performs technical work at a semi-professional level to deliver new transportation infrastructure. The position involves both field and office assignments related to transportation and land development. The successful candidate will have a sound technical foundation, strong project management skills, strong communication skills, and is well organized.

The work includes project scoping; managing the design and delivery of engineering projects from the concept phase through to construction completion as the internal project manager overseeing a team of consultants; responding to public inquiries; providing technical support to internal construction crews; liaising with/making recommendations to the Engineer of Record regarding design changes; and participating in intra or inter-departmental initiatives. As well, the incumbent will prepare conceptual, preliminary, and final design drawings of transportation infrastructure under the supervision of a qualified professional; inspect the construction of said designs; and prepare budgets, schedules, and other project management documents, as required, during the project life cycle. The incumbent may direct junior staff performing work on a specific project when required.

Requirements include a two year diploma in Civil Engineering from a recognized institution; a minimum of 5 years of directly related experience; is eligible for registration as an ASCT with the Applied Science Technologists and Technicians BC; possession of a valid BC Class 5 Driver's Licence; and is conversant with computer based engineering applications including AutoCAD Civil3D and Bluebeam Revu. Candidates with an equivalent combination of education and experience, such as a university degree in a relevant field of engineering with a minimum of 3 years of work experience, may be considered.

Regular hours of work are Monday to Friday, 8:30 a.m. – 4:30 p.m. (35 hours per week) with a possibility of a modified work schedule. Occasional work from home is available depending on work assignments.
