

Note: Applicants without cover letters will not be considered.

Job description

Junior Testing Technician Job Post.

May 26, 2023

Inland Technical Services Ltd has been a reputable provider of HVAC testing and balancing, building commissioning, and LEED services for commercial and industrial projects since 1986. We foster a positive and flexible work environment with a team-based mentality that encourages growth and innovation. We offer competitive compensation and benefits that exceed industry standards.

We are currently seeking entry-level Testing and Balancing Technicians in Kelowna and Kamloops B.C.; locations that offer multi-seasonal outdoor activities, great weather, and lifestyle amenities.

As a Testing and Balancing Technician, your primary responsibilities will be to verify HVAC equipment's performance and make necessary adjustments to meet the design requirements. This technical role demands a strong mechanical aptitude, integrity, the ability to write technical reports based on field data, and the capability to work independently in the field while representing the company professionally.

The ideal candidate should have a mechanical background such as HVAC work and trades (sheet metal, refrigeration, plumbing, etc) and or meet the educational requirements to achieve an ASCT designation in the future (but not required). We encourage self-motivated individuals who have the integrity to ensure things are done correctly. Through testing and balancing experience, there are opportunities for our candidate to advance into a commissioning or supervisory position that involves organizing and scheduling coordination meetings, field operational checks, design reviews, and verifying DDC sequences.

We also have both estimating and other technologist positions available in Kamloops.

Responsibilities

- Verify the performance of HVAC equipment and make necessary adjustments to meet design requirements.
- Write technical reports based on field data.
- Represent the company professionally while working independently in the field.
- Calculate and conduct drive changes and speed adjustments to pumps and fans.
- Prepare job files within our database and excel spreadsheets.
- Assist with onsite functional testing and site reviews.
- Instrument calibration and various office tasks including formatting and creating testing documents.

Qualifications

- Completed journeyman ticket in an HVAC related trade an asset (Note apprenticeship hours are not available through this trade).
- Mechanical background with the educational requirements to eventually achieve an ASCT designation is an asset (but not required).
- Strong mechanical aptitude.
- Ability to work independently and with integrity to ensure things are done correctly.
- Good written and verbal communication skills.
- Willingness to learn and grow with the company.
- Ability to work out of town during the work week. Rare occasional weekend and evening work may be required but is generally avoided.
- Interest in Kelowna/Kamloops and the lifestyle amenities they offer.
- Valid Drivers License.

Benefits

- Competitive salary (\$25-\$40/Hr) and benefits package that exceeds industry standards including company matched RRSPS contributions, paid sick days, and extended health and dental.
- Opportunity for growth and diverse challenges.
- Positive and flexible work environment with a team-based mentality.
- Established company with over 30 years of experience in the industry.
- Located in the Beautiful Okanagan Cities to Kelowna and Kamloops.
- Company vehicle once qualified to work independently.

If you're looking for an opportunity to join a team of like-minded individuals and gain valuable experience, we encourage you to apply. We value diversity and encourage individuals from all backgrounds to apply. Please submit your resume and a cover letter outlining why you would be an excellent fit for this position, including your interest in Kelowna, to lukeb@inlandtechnical.ca. Our interview process will include an in-person or video call meeting. Shortlisted candidates will have the opportunity to ask questions and meet with our team to understand the job and company culture better. Join us and build a rewarding career as we grow and take on new challenges to make the world a more efficient and better place.

Applicants without cover letters will not be considered.
