

# LIQUID WASTE SERVICES MANAGER

*The City of Campbell River is seeking an experienced Manager to join our Liquid Waste Services department team.*

***Naturally, Campbell River** – Located on Vancouver Island, surrounded by the ocean and majestic mountains, the City of Campbell River offers a rare combination of a welcoming small-town feel with large-city amenities. From summer markets and street events to an active arts and culture community to year-round, world-class recreational opportunities, the Campbell River lifestyle is unparalleled. We are a 45-minute drive from the winter and summer activities of Mount Washington, and just minutes from more than 100 km of all levels of mountain biking and hiking trails, plus easy access to the ocean, rivers and lakes for sports fishing, kayaking, paddle boarding and whale watching.*

---

**The role** – You will be responsible for overseeing the day-to-day operation, repair, maintenance, and servicing of the City's liquid waste systems and infrastructure aligning with the Strategic Plan, corporate initiatives, and evolving community interests. Areas of responsibility include wastewater collection, wastewater treatment, wastewater source control, drainage, stormwater source control, and emergency preparedness. You will oversee and provide leadership to staff in the liquid waste services department and be accountable for the planning, development, and implementation of comprehensive annual work plans and programs in support of the City's liquid waste services utility. You will also coordinate priorities and operational plans and initiatives in conjunction with other City operations and projects; and ensure that municipal services are delivered in a responsive, safe, cost effective and efficient manner.

**Our ideal candidate will have:**

- Two (2) year post-secondary technical diploma from a recognized educational institution in a related field such as civil engineering, environmental technology, water and wastewater technology or other relevant discipline.
- Five (5) years' recent, progressively responsible experience in overseeing municipal utility operations OR in the planning, design, construction, and maintenance of wastewater and/or drainage related infrastructure, along with planning and implementing related preventative maintenance programs.
- Three (3) years recent progressive supervisory experience, preferably in a unionized environment.
- Project management experience and/or certification.
- Valid Environmental Operators Certification Program (EOCP) certification in wastewater distribution and/or collections is considered an asset.
- Registered or eligible for registration as an Applied Science Technologist with the Applied Science Technology and Technicians of BC or other related professional designation is also considered an asset.
- Candidates with an assessable equivalent combination of education, training and experience may also be considered for this role.

This exempt management position offers a current salary range of \$98,200 to \$111,546 commensurate with qualifications and experience, as well as an attractive benefit and vacation package, and flexible work arrangements options i.e., compressed work week or hybrid remote work.
