

Position: Civil Engineering Technologist

Cascara has an exciting opportunity for a Civil Engineering Technologist to join our team. In this role, you join our team of Technologists and Engineers and work on a range of engineering projects. Your work will consist of carrying out design work, CAD drafting, and construction site reviews. This role offers great opportunities for mentorship and advancement.

What You Bring:

- Experience working on land development, commercial and/or municipal projects
- Diploma in Civil Engineering Technology, or another comparable technical credential
- Registration or eligibility for membership as GradTech, ASCT or CTech with ASTTBC
- Excellent time management skills
- Attention to detail and the ability to consistently produce accurate, high quality work
- Excellent interpersonal and communication skills
- Ability to work cooperatively in a team environment
- Class 5 driver's license and reliable vehicle

Responsibilities:

- Produce detailed engineering drawings using Civil 3D, including surfaces, alignments, profiles, sections and corridors
- Liaise with municipal, regional, provincial, and federal governments as required to meet project objectives
- Coordinate with developers, contractors and public utilities
- Research and apply various municipal CAD standards
- Prepare cost estimates
- Review construction activities and provide feedback to contractors and clients

Who We Are:

Cascara is a civil engineering firm operating in Nanaimo and the surrounding area. Our company is employee-owned and managed and offers excellent opportunities for growth and professional development to the right candidate. We offer a competitive compensation package, positive work environment, and flexible work hours.

Application Information:

Please submit a resume and cover letter in PDF format to info@cascara.ca

We will only be able to reply to shortlisted applicants.
